

Table 1-6. Accessories Available for the HP 8510 System (Cont'd)

HP 85053A 3.5MM VERIFICATION KIT

The HP 85053A verification kit contains a set of precision 3.5mm measured standards used to verify the performance of an HP 8510-series network analyzer operating with error correction. The devices contained in the kit are supplied with either electrical or mechanical data.

Qty.	HP Part Number	Description
1	1250-1869	Precision 3.5mm Beadless Airline, 50 Ohm, 7.5cm Long, >46 dB Return Loss
1	1250-1871	Precision 3.5mm Stepped Impedance Airline, Reflection Coefficient = 0.60, 25 Ohms Nominal, 7.5cm Long
1	85053-60001	Precision 3.5mm 20 dB Attenuator
1	85053-60002	Precision 3.5mm 40 dB Attenuator
1	85053-80001	HP 85053A Instrument Case
1		Calibration Data Cartridge (contains device S-Parameter Data)
1		Printed S-Parameter Data
